DETAILED ACTION

1. This application has been examined. The claims 4-8 and 16-20 allowed.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: None of the cited art teaches or suggests that an acoustic contact detecting device comprising a connecting device for connecting said acoustic wave transducer with the planar wiring, said connecting device being formed in a form capable of connecting the other electrode section of said piezoelectric vibrator with said second wiring section; a diffractive acoustic wave mode coupler having a mode of converted wave having high energy on said top surface and functioning for coupling a second wave being propagated along an axis parallel to said top surface with said first wave; and a means for detecting a perturbation in the energy of said second wave as claim 8; or a planar wiring for supplying this bulk wave generation means with electric power, said planar wiring comprising a first wiring section capable of contacting with one of said electrode sections of said piezoelectric vibrator by way of line or face contact and a second wiring section spaced and insulated from said first wiring section; a connecting device for providing an electrical connection between said bulk wave generation means and said planar wiring, said connecting device being formed in a form capable of connecting the other electrode section of said piezoelectric vibrator with said second wiring section as claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
